

High capacity, upright glass door catering chiller.

Key Features of FOSTER EP700G ECOPRO G2

- Improved thermal efficiency
- Maximised capacity
- “smartphone style” touch-screen control panel (Hidden-until-lit with high-visibility temperature display)
- Ergonomically designed easy-opening, easy-cleaning door handle
- Designed using “Fluid Food Fresh DynamicsCFD Modelling” resulting in the advanced Foster “Circulair II” air distribution system
- Refrigeration system designed to be the most technologically advanced and energy efficient to reduce running costs
- “Airlines” ventilation system cools the compressor reducing running time by 15%
- Revolutionary racking system adds stability with fewer components
- Modern aesthetic combining form and function for a great-looking easy-to-use cabinet
- “Fuzzy Logic II” smart controller with increased accuracy of temperature control
- Hot gas door heater utilises wasted heat to improve energy efficiency
- Re-engineered recessed door interface provides mechanical barrier to protect gasket face from interior cold air

Technical specifications for FOSTER EP700G ECOPRO G2

Product Code	EP700G ECOPRO G2
Total Length	700 mm
Total Depth	820 mm
Total Height	2080 mm
Capacity	600Ltr / 21cu.ft / 3 X 2/1GN Shelves
Power Supply Required	13 amp
Temperature Range	+1°C / +4°C
Interior/Exterior finish	Stainless Steel
Refrigerant Type	R134a/HC Refrigerant
